

Final warning to those who are participating in elections

Everyone who is participating in the coming elections will be responsible for terrible consequences, bringing death to him and his family. Because he will be involved in the holy war, Crusaders against Islam. We prepared all weapons available to attack election centers, including car bombs, rocks, mortars, also IED.

We have sworn to cover the streets with the blood of voters. Promises of the atheist coalition forces to the voters of ensuring safety and security for election centers will fail because they failed to secure their own bases, troops and mercenaries including Iraqi National Guard and Iraqi Police. Knowing that election centers have a large number of people, and since you have already witnessed our blessed operations against American troops in Baghdad and Mousil, how can they ensure your safety in these centers?

All promises of Prime Minister Alawi will be in vain. He would not stand with you in the rows of death. His main goal is to fill his pockets with money and satisfy his American and Jewish masters. Those who are going to vote, thinking they would be safe, will be followed like their own shadows till we can slaughter them and their children.

Beware of us:

Note: All people should stay away 500 meters from election centers to ensure their safety. Stay away from windows, keep your windows open.
